We've  
*Achieved*  
So Far

7  
Ways We Are  
Building  
Uganda

**Building Excellence with the Buyamba Team on the Uganda and USA side involves partnership and prayerful strategic building on both sides of the globe. We function as one ministry with two parts, both growing at a pace set by God, striving for excellence, both with a shared vision and mission:**

Our Vision is to empower the orphaned and needy children of Uganda to impact their Nation for Christ.

Our mission is to offer love, hope, and a future through education and discipleship, one child at a time.

## 2019 Buyamba Demographics

 210

Students gave their lives to the Lord

1,733

Students supported by Buyamba U.S.

1,422

Number of sponsors supporting students

111

Students in higher education - University, College, or Trade School

1,975

Number of people who give to Buyamba

## 7 Ways We Are Building Uganda

### 01.

#### Education Building

God Cares Schools are known throughout the region for offering educational excellence. The teaching staff is both highly qualified and committed. The students' test scores reflect the high quality of education, and they are progressing well through the state-required testing in all levels. Many of our students have done well on their final "A-Level" testing and have moved on to universities or trade schools as a result.

### 02.

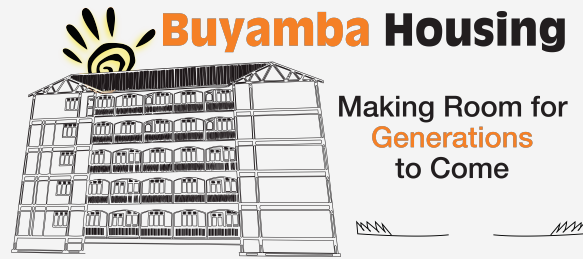

#### Spiritual Building

A key component of our program is discipleship. The students are educated in a Christian world view, thus imparting the knowledge of the Creator in all forms of study at all levels and in every subject area. Many children are also involved in the AWANA program throughout the year. Weekly chapels are filled with worship and teaching following an annual theme which overflows into weekly small groups. Visitors from the U.S. love to be a part of chapels when they are there, often doing the teaching portions. The schools also focus on a bible camp each summer that is an intensive Bible program and overnight camp experience combined.

# 03. Physical Building

As the Bethuel Dongo Assembly Hall was dedicated this year, the girls' dorm has been under construction. The doors of the first floor of the five-story building will soon open to 100 young girls to board at the beginning of 2020. Each consecutive story will house another 100 girls. The plan is to finish two floors for the girls, then start on the boys' dorm. This will allow us to take in more students and provide for them as we make room for future generations!

# 04. Team Building

God Cares School has grown to encompass many sports teams as the value of physical education has been embraced and emphasized. There are now both boys and girls soccer and volleyball teams (both played at a national level), along with both boys and girls basketball teams and girls netball. Each team has uniforms and is involved in league and tournament play. For the first time this year, baseball teams have formed at God Cares, and the sport is being learned by the students.

# 06. Creativity Building

God Cares Schools offer electives to enhance the state-mandated curriculum. Electives allow students to explore their creativity in things like art through drawing and painting, ceramics, and silk screening. There is also a complete computer lab at the high school and courses in dance, worship team, instruments, debate, science, and even one on global current events.

# 05. Nutrition Building

The recent farm flourishing has made a massive impact on the diet of the God Cares kids, producing crops and animal products that have enhanced the meals at God Cares Schools. Tomatoes, cabbage, bananas, matoke, cassava, peppers, and many vegetables have improved nutrition, coupled with occasional meals of chicken, beef, milk, and eggs that have provided additional sources of protein for both schools.

# 07. Diversity Building

Anyone who has visited God Cares School knows it is truly a school of African diversity. Although most of the students are from Uganda, there is still a large amount of Sudanese children, children from the Congo, Kenya, Rwanda, Ethiopia and Tanzania, among others. Uganda, a country that has endured its civil wars over the years, is a refugee country and takes in both parents and children who have had to flee their own country for different reasons.

# 3 Ways We Are **Building** Buyamba U.S.

## Building Partnership

We value the relationship with our donors and recognize that God has put us in direct partnership with them to do His work for the children of Uganda. Many Buyamba Partners find creative ways of giving that result in double the impact, such as matching gifts, creative fundraisers, and sharing Buyamba with their church or friends.

## Building Stewardship

The stewardship over the ministry at God Cares School and the donors of Uganda Buyamba are of utmost importance to us. We have an accountability system set up between the U.S. office and the Uganda Buyamba Orphan Outreach Ministry that oversees God Cares School. We put an emphasis on accountability and transparency in all we do.

## Building A Legacy

Many donors have journeyed with Buyamba for years, and more and more people are asking about how they can create a legacy of giving that continues through their lifespan and beyond in their individual planned giving. Buyamba is equipped and has received multiple gifts in kind, stocks, bonds, IRA rollovers, and assets. Many have set up regular giving in their trust funds.

## Top 5 Ways To Get Involved Building Buyamba 2020

### Sponsor A Child

\$35 a month to empower a child in need

### Bible Camp

\$40 offers a child this life changing experience

### Build the Dorms

Let's raise the next \$100,000 to build the 2nd floor at GCHS

### Build the Sports Courts

Each of the three courts needs \$2,500 to be completed

### Expand the Farm

We need seeds, animals, equipment, and fencing to support our efforts at the farm
