Helping Uganda...one child at a time

Fostering A Heart of Gratitude

Anyone who has ever visited God Cares Schools knows that the teachers and administrators have brought up the student community to continually be grateful for God's goodness no matter the circumstances. One of the ways the school community fosters this truth is during their morning worship times or assemblies, and even in the classrooms, the teachers and students have an ongoing interactive, responsive chorus that is declared throughout the school that goes like this: *God is good ALL THE TIME; All the time, GOD IS GOOD.*

*God is good ALL THE TIME;
All the time, GOD IS GOOD.*

Our prayer is that EVERY child we care for at God Cares School will remember this truth whether in the classroom or with their Student Connect Group in their home villages. God is good no matter what, and He cares for them through all things... blessings, struggles, hunger, sickness, and even death. He is there, and the one who loves us is always good! Thank you for your prayers for these children.

*"And let us not grow weary while doing good, for in due season we shall reap if we do not lose heart."
-Galatians 6:9*

May God's truth continue to resonate in the hearts of the community of God Cares, whether united or separated from each other for a time, that He will never leave them, and He is always good. Amen.

Gratitude for the Success of Our University Students

Although schools throughout Uganda must wait until January 2022 to begin their new school year in person; the university students will start their virtual programs on November 1st. Students who have completed S6 at God Cares High School are now applying to universities and securing a place to commence their studies at a higher-level institution. Many of these new students will be attending Africa Renewal University and Livingstone International University, for they maintain the values of Christian education and discipleship effort that God Cares School has nurtured in the students.

***19 Students are graduating this month!
Our vision to empower the orphaned and needy children of Uganda has come to fruition in these students ... they're off to IMPACT UGANDA!***

**LIVINGSTONE

UNIVERSITY**

Gratitude for the Success of Our University Students

Additionally, some of our university students have recently graduated from their university. With the entry and exit numbers, we maintain about 130 students enrolled in universities. Trade Schools will also open in January, which will open up various programs to our students of life trades such as tailoring, agriculture, mechanics, and technology certification, to name a few. We get very excited every time we see our children grow and mature from a young age to responsible young men and women.

If you have a sponsored student at either of these pivotal stages, our office will contact you to update you on their progress and decisions and how you can continue to support and pray for them.

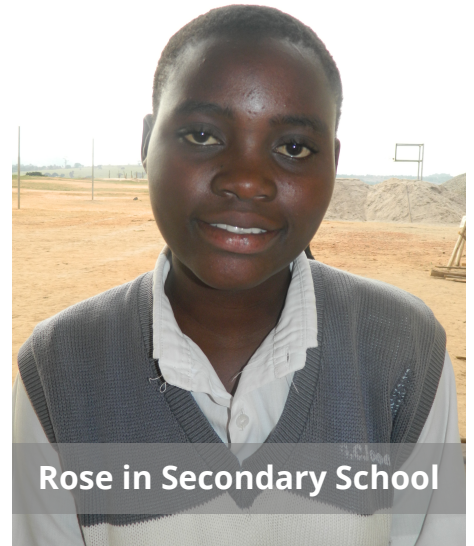

Rose in Primary School

Worship Byakika shared an inspiring story of one Buyamba student named Rose Nankumba:

Rose is one of our children we are proud of. She joined Buyamba in 2006 in Primary two at God Cares Primary School. Her grandmother approached us after the child's parents separated when her mother could not care for her and her brother, and the father left. When Rose came to Buyamba, she was a timid young girl, and we could not tell what would become of her.

After finishing her primary level in 2011, Rose joined God Cares High School, completing high school in 2017. In 2018, she joined Africa Renewal University, and that is when we started seeing the woman leader God created her to be.

Rose in Secondary School

She became the Girls' Bible Study leader at Delight Ladies Bible Study group at Africa Renewal University, which made everyone proud. We are thrilled to see her graduate with a bachelor's degree in Business Administration this October. We thank God that she now gets to join the God Cares School administration leadership staff as an accountant.

Rose in University

Rose wrote a graduation thank you letter recently that expressed how thrilled she was for this opportunity to work in the school that she grew up in. She explained, "I have been offered an opportunity to work in God Cares High School as an Accountant, and I am willing to work with honesty and submission to God Cares High School and Buyamba Outreach Ministry. This is the only way I can begin to give back to the Ministry, though I can never explain or repay the many ways that Buyamba has been good to me."

Thank you for partnering with us in Buyamba's vision to empower the children of Uganda to impact their nation for Christ.
